RE: LETTER OF REFERRAL - REMOTENET

This letter serves to confirm that Remotenet is currently developing the QCTO's MIS system since 2016 and that some of the modules have been deployed and are working well.

Remotenet has also developed a Learner Management System for use by our Skills Development Providers which is currently in the final phase of end-user acceptance testing.

The QCTO is satisfied with the service rendered by Remotenet and has no hesitation recommending them.

Regards

Mr. Vijayen Naidoo
Chief Executive Officer (QCTO)
